J. F. Whittemore, who has just been acquitted of the murder of Doc Roberts, is a witness for the defense in this case. Both homicides occurred in the same neighborhood. SOUTHERN TRADE.

Dun Says There is Slight Improvement, but Bradstreets Says it Isn't So. NEW YORK, May 12.-R. G. Dun & Co.'s weekly review of trade will say:

The smash in the industrial stocks a week ago, the failure of some firms and of the National Cordage Company, and the largest decline in stocks known in any week since 1873, have been followed by surprisingly little disturbance. Busi has shown remarkable soundness and strength under such a strain, though disquieting rumors are naturally frequent. Bank failures at Chicago and Indianapois and rumors of others reflect large cosses through Chicago speculations in real estate and grain, and at Indianapois through the failure of the Premier Steel Company, but the commercial cred-its are not as yet materially affected. There is more buying of commercial paper than a week ago, and while foreign exchange has risen above the ex-porting point, no gold is yet ordered for shipment, as banking houses reckon upon larger exports of products before long. Interior money markets are growing lighter and more cautious, but no such eral trade, which appears to have some what improved, with more seasonable weather, At Little Rock and other South-ern points the danger of high water re-tards trade. Collections are fairly good in Tennessee and Alabama, with quiet trade; rather slower at Atlanta, some-what improved at Augusta, with more active trade in growing and fallower active trade in groceries, and fair at Savannah, where trade in naval stores is active. At Mobile trade is satisfactory; at Charleston brisk in dry goods, and good in hardware and shoes, though the liquor trade is unsettled by the new law. At New Orleans trade is only fair, though sugar is strong, rice in active demand, and lumber and building materials active. The overflowing of lowlands in the Yazoo delta arrests collections and trade in that
